

## Stay Alive Don't Lose Control

Come to this important presentation on Loss of Control (LOC), our guest speakers will explore some of the factors that can lead to LOC and will provide some practical steps that can be taken by pilots to help avoid LOC. We will also be discussing airport operations which can often be a challenging environment, and can even pose a collision danger in the air or on the ground when pilots don't follow the recommended procedures. We will review regulations and recommended procedures when operating at airports, to help make us safer pilots.

**Directions:** Please see map link for directions, seminar will be held in the Airport Conference Room.

### A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
